Summary

I'm a student of Kiev Polytechnic Institute. I learn Computer Science there. Also I have experience in web development.

I like to study interesting things in programming, and this brings pleasure to me. I have skills in **Angular 2+.** I made an online system for passing tests on the technology of M*EAN together with friends.

Now, I'm studying **React/Redux** and ready to increase my knowledge. I forget about the time when I'm doing or studying something I like.

I attend English courses to improve my level of English. I also use:

- HTML(PUG)
- CSS(SASS)
- Bootstrap
- Node.js
- REST API
- MongoDB
- MySQL

You can see my work on github https://github.com/chehivskiiandriy and my portfolio https://chehivskiiandriy.github.io/.
